"Ah! Happy School Days." 1904.

Not to appear too wise, but just wise enough, we say to the young man about to leave school and enter upon the highway of the slippery hereafter—there are somethings that you have learned in school that will be useful—there are somethings you had better forget. Theory and Practice are not always brother and sister.

It Is Easy to Make Money. It Is Not Easy to Keep It

You will learn this by experience, just as your father did before you. You won't take his word for it.

DON'T GET RICH QUICK

A Lowell Savings Bank is the best place for investment you will ever know.

These few drops of inspiration, while not entirely original, are just as true as if they were, and were learned only after the contributing of many drops of perspiration.

THIS, THE FIRST VOLUME OF THE

PHI ANNUAL TO THE MEMBERS

OF THE LOWELL HIGH

Editorial

IN bringing forth this, our first annual, the editors wish to express their thanks to all those, who so kindly assisted them in their work. As nothing like this has ever before been attempted at our High School, it is with fear and trepidation that we present this volume to the pupils of the Lowell High School; but we hope that the readers will accept this work in the spirit in which it is dedicated. Especially do we hope that those whom we have "knocked" within these pages will not take offense at what is meant, but a gentle "hit," to be taken with a grain of salt, and well digested.

Here endeth our first attempt.

YES, young, innocent, and unsuspecting we have been through the mill, do we not look it? Think of it! Four years of Latin, Greek, Mathematics, and like horrors, and yet we regret that it is over. We regret that we shall no more be summoned by an imperious into the sanctum of the *private office*. We regret that no more shall demerits descend upon our heads, like the gentle rain that falls from heaven in the merry spring. We can say and will say one thing, however, we are and always have been a class to be proud of! Little did we think that we would turn out to be what we now are, when we assembled in the hall as freshmen four years ago. And yet, after we are gone into the cold, cold, shivery world next June, all the daily papers will come out and say, as with a voice of thunder, "1904 is the best class ever graduated," and if you see such a statement in a daily paper, well—that settles it. And to show that we are generous, we will donate all the apples, olives, sandwiches, and crackers found in Room 1 to the class of 1905, with the sincere hope that they will make as good use of them as we have. We may all donate something more material, such as—well we will not mention any names, but we just hope everyone will come with us into the world, and not be foolish enough to stay with 1905 another year. And then, when we all meet at the Golden Gate, we'll step up to one another, put our broad palms on each others shoulders, and say with a voice, glad in the consciousness that our work is done, "Brother—How're they comin'?"

Yours,

1904.

Class of 1905

TO say that we are the best class would be a gross exaggeration, but still, once in awhile, it is well to exaggerate. We went in "lemons" and came out "squoze," especially the young ladies, who seem to have a bent in that direction. But still we think and even say that we are the best class, and a lie well stuck to is as good as the truth. One thing we praise heaven and our parents for, is that we were not born a year later. Gosh! It gives us heart failure to think of it! The disgrace and horrible fate of being among the members of the class of 1906. It's even worse than being in 1904; so, you see, we are between two fires. Ever since 1903, we have supplied the Athletic Association with a Foot-ball, Base-ball, Basket-ball, and Polo team, and have given the Class of 1904 the privilege of managing the same. But this is just a side line, simply showing what we can do, if we choose. The trouble is, we very rarely choose. It would take too long to name our many virtues, and so we'll let you guess the rest.

Lowell had a halfback,
Who knew the game right well,
And when he bucked the Lawrence line,
He sent them all to

CHORUS:

Hallilujah! There's glory in my soul!
Oh! Hallilujah! There's glory in my soul!

A cat sat on a railroad track,
  The motorman rang his bell,
The car it went to Christian Hill,
  The cat it went to

CHORUS:

Hallilujah! There's glory in my soul!
Oh! Hallilujah! There's glory in my soul!

George Washington had a hatchet,
  And used it very well,
But when he cut the cherry-tree,
  His father gave him

CHORUS:

Hallilujah! There's glory in my soul!
Oh! Hallilujah! There's glory in my soul!

I took my girl out walking,
  Down in a shady dell,
I didn't get her home in time,
  Her father gave me

CHORUS:

Hallilujah! There's glory in my soul!
Oh! Hallilujah! There's glory in my soul!

I know a thousand verses more,
  And know them very well,
But before I'll sing them all to you,
  I'll see you all in

CHORUS:

Hallilujah! There's glory in my soul!
Oh! Hallilujah! There's glory in my soul!

Lawrence Had A Football Team

TUNE "Mary Had a Little Lamb."

Lawrence had a football team, football team, football team,
Lawrence had a football team, without a single head.
Lowell fell upon that team, upon that team, upon that team,
Lowell fell upon that team, and now that team is DEAD, DEAD, DEAD.

Rowe-lily-lily, rowe-lily-lily,
Boom-ta-te-poom
Tack-tiddle-tiddle, tack tiddle-tiddle,
Mumm's extra boom,
And a skina-ma-rinky-dinky,
Boomp-a-linky-dinky, fall-di-re-o.
And a rowe-lily-lily, rowe-lily-lily,
Drink poor rum.

A Few Biographies

Ernest Davis Scribner hails from the Highland Grammer, being graduated from that institution in 1901. Although Mr. Scribner has many shining qualities as an athlete, he prefers to spend his time in study or shining his auto. Mr. Scribner is 15 years old, and expects to complete his education at the Lowell Commercial College in 1908.

Karl Bicknell of Christian Hill entered the High School from the Varnum Grammar. Mr. Bicknell is manager of the basket-ball team, and treasurer of the class of 1904. As soon as class dues are collected, Mr. Bicknell will start for St. Louis. Bick. has seen 22 summers, and expects to wind up in the Textile School at the age of 28.

Arthur Barnes entered High School from the Moody School. He has proved himself an expert athlete, being a member of the track team for one night two years ago. Although Arthur is very much opposed to study, he intends to graduate before long.

Edward H. Tucke, although not with us at present, is devoting most of his time to study, tutoring with Prof. Slivinski. Mr. Tucke is a rather tired individual, due principally to overstudy. He is 19 years, and *expects* to go to Harvard before retiring to the "Realms of Hades."

Count Maurice Mirovitch was born on the banks of the Danube sixteen summers ago. He wandered to Lowell at the age of 12 to complete his education at the Lowell High. The Count is short stop on the Baseball team, and reminds one in more ways than one of old Sockalexis of the New England League. Merry will go to "Tech."

Sidney B. Whipple popped out from some minor school of Belvidere in 1901, to mature into one of the most educated, clever, witty men ever gradu-

ated from High School. (Speech, Sid.) He holds many honorable positions, and expects many more. Sid. will go to Dartmouth.

Albert Scannell escaped from the Highland Grammar in 1900. He spent his early years at the High School in retirement, devoting his mind to study. Mr. Scannell has become a very prominent member of the singing class, so prominent, in fact, that he has been obliged to leave. Mr. Scannell expects to complete his education in his father's boiler works.

William Rawlinson made his début into the High School in 1900. Mr. Rowlinson is a prominent member of many organizations, is quite an athlete, and loves cigars. Bill has recently cast in his trading-stamp book, and is sporting a half-dozen very stylish socks. Mr. Rawlinson is undecided as to his future, but expects to go to "Tech."

Henry McCloskey entered High School in 1896, and is still with us. Mr. McCloskey is one of the most popular men in school, especially with the faculty, whom he often calls into private consultation on many subjects. Mac is one of the best, if not the best drilled private in the Regiment. He expects to graduate in 1908.

Henry Hood Wilder graduated from the Moody School in 1901. Mr. Wilder has proved himself quite an athlete, although sticking close to his studies. He is captain of the Golf Team, member of the checker, tiddle-de-winks, and fan-tan teams. He expects to complete his education at the Harvard Divinity School.

"Say, Tucke, how's the road from Dracut to Lowell?"

The Young Man's Store

That's just what this is, and young men are fast finding out that for exclusive, stylish clothing, there's no store like it.

Here is a class of clothing for the young man, 32 to 36 breast measure, designed for him alone; even the cloths are chosen especially to please the young man's fancy.

Coats with very broad shoulders, short and snappy—with collars that fit snug and the new narrow lapels. Single and double breasted, as you prefer. Peg-top trousers such as you'll not find elsewhere—clear up-to-date. Most of the suits have hand-finished collars and buttonholes—fine French hair cloth fronts.

These Young Men's Suits simply **out-style** any suits that you've ever seen ready made, and the fit is practically perfect. It's great clothing, and you can buy it at the price of ordinary ready made, $8, $10, $12, $15, $18, $20 the suit.

Electricity will come into universal use for residence lighting and for cooking also.

Prices for lighting current in Lowell are the lowest in the state for similar service, and are so low that all can afford to use it.

Electric light is safe, convenient, and cleanly. There are no spots of black soot on the ceiling over the electric lamp, and the air is wholesome, with its full amount of life-giving oxygen; consequently health is preserved where electric light and appliances are used.

The Electric Hot Water Bottle (which has no hot water about it) keeps an even heat at a very small expenditure of energy, and can be attached to any socket. The Electric Flat Iron costs but little, and by its use the ironing can be done in one-third less time. The Electric Fan makes the house comfortable in the hottest days, makes flies and mosquitoes hunt more congenial climes, and costs but little to run. By detaching the fan blade and substituting a small buffing wheel the silver can be cleaned quickly and well. Electric Chafing Dishes are safe, which is not the case with alcohol. Egg Cookers and small Water Heaters are convenient for use in the dining room, and cost but little to purchase or operate.

At our office we have many appliances on exhibition which we shall be glad to show if you will call.

MERIT

Is the guarantee of stability, and superlative merit characterizes and distinguishes Hood's Sarsaparilla.

Every word that has ever been written or spoken in favor of this great medicine is fully verified by the largest volume of testimony in the world. Hood's Sarsaparilla received

15,000 Testimonials in 1903

BY ACTUAL COUNT

An average of over fifty every business day; superabundant evidence of the great and unequalled merit of Hood's Sarsaparilla.

It is not our claim merely but the revelation of the experience and testimony of the people that

O'SULLIVAN'S Tan Rubber HEELS

Match the leathers and the sizes of new shape heels

The Tan Fever is growing on shoes and heels.

The clatter of hard leather heels is now in bad taste.

New rubber is softer, more durable, and economical than leather.

Argue it as you may, the rubber heel is coming to the front.

O'Sullivan's Rubber Heels are synonymous with new rubber.

New rubber is the only thing to cushion the feet—try as they may, old rubber junk won't do it.

Order by the name O'Sullivan, and show the dealer you know the BEST—they cost no more.

O'SULLIVAN RUBBER CO., Lowell, Mass.
